

Cubelet Ice maker and ice & water dispenser

TC S-L 180 AS

Touch free dispensing model
- Ice & water configuration
- Easy clean

TC S-L 180 ASM

Manual version with 2 push buttons
- Ice & water configuration
- Easy clean

TC S 180 EVO

Touch free dispensing model
- Ice only configuration
- No push buttons in the front
- Easy clean
- Specific for self-service use

Standard Features

- Automatic ice dispensing systems and self-service operations are becoming evermore popular in modern Foodservice concepts.
- They allow customers to cool their drinks as per their own taste, making it easy and preventing any potential sanitary hazards: clear and pure ice bits drop directly into the consumer's glass, with no manipulation.
- Scotsman Ice dispenser TC180 is the Industry benchmark in the ice or ice and water dispensers segment.
- This line, in its different versions, is now available in the "Long Range" version that offers an unprecedented 9 kg in-built bin, keeping the same dimension as the original 5 kg version.
- For those locations where the dimension of the counter are limited, we are offering the "Short" version, whose depth has been reduced by close to 6 cm, allowing for installation on most counters. The capacity of the storage bin will not change though, granting the same amount (5 kg) of Scotsman "Cubelet" super compressed ice.

This product qualifies for the following listings:

1 g
Residual
water content 8%
16 x 15 x 7-8 mm

By far the dryest and hardest form of Flake ice, it is produced at just below zero degrees Celsius just like all other flake ice forms, but it is then compressed to remove excess residual water, reducing it to as low as 10% of its original volume.

2 Years Warranty

Subject to certain limitations and exclusions

Certified ISO 9001:2008
